UCR REGISTRATION NOTICE

Many members have received a notice pertaining to the United Carrier Registration (UCR) Program. The UCR Program is a new federal program requiring individuals and companies that operate commercial motor vehicles in **interstate (between states)** and **international commerce** to register their business with a participating state and pay an annual fee based on the size of their fleet. A "Commercial Motor Vehicle" (CMV) is defined as a self-propelled or towed vehicle used on the highways in commerce principally to transport passengers or cargo, if the vehicle:

- a. has a gross vehicle weight rating or gross vehicle weight of at least 10,001 pounds or more, whichever is greater;
- b. is designed to transport 11 or more passengers (including the driver); or
- c. is used in transporting hazardous materials in a quantity requiring placarding.

Since Pennsylvania is not yet a participating state, anyone required to register under the UCR program must apply through New York or West Virginia. or, any business subject to UCR may register and pay its fees on-line through the national on-line registration system developed and maintained by the Indiana Department of Revenue on behalf of all UCR states. This online registration is available at www.ucr.in.gov. Enforcement of this new UCR registration is scheduled to begin after November 15, 2007. **PARTS has posted more specific information regarding UCR Registration on the Member's Only section of our website (www.parts.org).**
