HOUSE COMMERCE COMMITTEE TO HOLD HEARING SCRAP METAL BILL

The House Commerce Committee will be holding a public hearing on House Bill 1742 on November 15. HB 1742 requires scrap processors and recycling facility operators to collect certain information when purchasing scrap material. The bill would require a scrap processor or recycling facility to obtain the following information when the purchase price of the scrap materials exceeds \$50:

1. Name, phone number and address of seller;
2. Seller's driver's license number or other form of government ID;
3. Make, year, type and license plate number of the seller's motor vehicle;
4. Creation of a unique identification number for the seller to be used each time a transaction is made with the seller; and,
5. The seller's signature for each transaction.

THEFTS OF CATALYTIC CONVERTERS & WHEELS ON THE RISE

PARTS has received numerous reports of thefts involving catalytic converters and aluminum wheels. Members should be on the lookout for suspicious individuals who might be watching your facility. In addition, double-check your facilities to be certain you have taken all the necessary precautions to secure your buildings and entire property. If you have any helpful hints on securing your business that you believe would be helpful to your fellow members, contact the PARTS office and we will pass on your ideas and suggestions in future *Weekly Updates*.

PARTS WEB SITE MEMBERSHIP DIRECTORY UPDATES

PARTS is in the process of updating the online membership directory. Can you please check your listing on the web site (www.parts.org) and contact the PARTS office at 877.211.0266 with any additions or revisions including links to your e-mail and web site. You can also e-mail your changes to mike@parts.org.
